## SUGAR BARONS HIDING

Again the Trust People Fail to Hold the Adjourned Meeting.

Active Trading in Industrials and Grangers on 'Change-Indianapolis Cereals Show Small Reductions.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 31/2@51/2 per cent. Sterling exchange was dull, with actual business in bankers' bills at \$4.87@4.87% for demand and \$4.85@4.85% for sixty-day bills; posted rates, \$4.86@4.88; commercial bills, \$4.84@4.84%.

Silver certificates, 644@64%c. Bar silver closed at 60%c per ounce; at London, 29%d. Total sales of stocks amounted to 149,264 shares. Although it cut no figure in governing the course of prices on the Stock Exchange, the failure of the American Sugar Refining Company to hold its adjourned annual meeting yesterday was a fruitful subject of comment. It was a foregone conclusion that no meeting would be held, and but few stockholders and noze of the officers attended at the place of the meeting. Evidently the officials of the company are not yet prepared to let the public at large and the Senate and House of Representatives into their confidence. It now looks as if the annual meeting would not be held until after the tariff bill is disposed of. In the stock market the principal activity manifested was during the morning, when the trading was chiefly in Sugar, Chicago Gas, Western Union, Distilling, the grangers and New England. During the afternoon the speculation was dull except for Chicago Gas, Western Union and Sugar. At the opening a firm tone pre-valled, and most of the shares traded in were higher than at the close Tuesday, exceptions being Rubber, Cordage and New England. Better prices were

the rule in the early dealings on moderate buying, while London, in the Arbitrage specialties, and Philadelphia, in Reading, were small sellers. A brief period of depression occurred between 10 and 11 o'clock, followed by followed by a sharp upward movement.
The advance was steadily held during the
afternoon, except for Chicago Gas and
other industrials, until after 2 o'clock, when the general list gave away a fraction. In the final dealings a partial rally was made and the railway list closed fairly firm. On a report from St. Louis, where the annual meeting was being held, that the National Linseed Oil Company had decided to issue \$3,000,000 debenture bonds, the stock broke 4% per cent, on sales of 600 shares. The selling movement quickly ended and a recovery of 314 per cent. was made on buy-

ing by insiders. The grangers were also well held. The railway and miscellaneous bond market was strong during the afternoon, but became unsettled in the afternoon, some ssues recording declines, and closed irreg-

Government bonds were firm and State bonds were inactive. The following table, prepared by James E. Berry, Room 16, Board of Trade. shows the range of quotations:

The egg market is barren of stock, with not enough receipts to supply the home demand, and shippers are doing but little, so much higher prices will eggs bring at the groceries. Milder weather would make a lower market, consequently shippers are not disposed to pay over 14 cents. On Commission row the gunly of cents. On Commission row the supply of everything in the vegetable line is large and prices easier. The better prices for oranges increased the shipments in here. The seed market is unsettled, the sharp break in prices on Monday is followed by an advance of 50 cents on the different grades of clover seed. In the local grain market there was a little more life in the bidding, but wheat went off 1/2c on Tuesday's bids, and several grades of corn 1/4c. ## THE LIQUOR LEAGUE.

# A Strong and Growing Organization

That Proposes to Antagonize It. To the Editor of the Indianapolis Journal: The Journal of this morning refers to the part the Liquor League is to play in the systematic resistance to the law. That is nothing new. The only new feature is the necessity of bringing its force to bear upon this special department of its labors. Hitherto for several years the attempt to enforce law was so feeble and spasmodic that no special effort of the league was needed in that direction. It seems now that the enforcement of law is likely to be more than a spasm, hence the necessity of bringing into service this, the most powerful political organization in the State-in the United States, for that matter, for these local leagues form a part of the State league, and each of these in turn is a part of the national league. But these leagues are not narrow in their scope. They take in not only the enforcement of law but the making of law, hence the league, in all its branches, looks after elections as well as local saloons. I have before me a copy of their Red Book of 1892. It consists chiefly in the report of the committee on elections, designating which of the candidates of the several parties were to be spotted, and, singularly enough, not one of those thus spotted was elected. In giving the reasons for not voting for one it is alleged that some years ago, as prosecuting attorney, he prosecuted saloon keepers. Of another it was said that several years ago, in the Legislature, he voted for some amendment to the liquor law, and of another that he did not dare to say he was opposed to sumptuary legislation. It may be well to know that this league is not a local institution nor got up for this special occasion. It is State wide and national, looking after State and national affairs as well as local. It is a secret oath-bound organization. I have before me also a copy of the initia-tory oath. It is thrillingly binding and nobody is let into the secrets of the league but those who take the oath of secrecy. How I came into possession of them is not material. They can be examined by the curious, but not let out to everybody. Do not the facts in this case appeal to all men who are not in collusion with the saloon to antagonize this powerful political organization by something more than prayers and tears? Tears are very likely to follow prayers that are not made effectual by works. In other words, the man who does not help the Lord answer prayers is quite likely to have occasion to weep bitter tears over the slain of his own household whom he was too cowardly or penurious

to protect except by prayers. There are anti-saloon leagues in this city and in the State. How many in number and who compose them are secrets to be known only to those entitled to know. They are chiefly organized in churches, each church having its own local league, but not necessarily composed of church members only. Rev. Z. T. Sweeney, of Columbus, is the president; Rev. J. A. Rondthaler, Indianapolis, vice president; E. M. Goodwin, Indianapolis, secretary, and C. E. Newlin, Indianapolis, treasurer of the State League. Any one wishing to know the officers of the local leagues can ordinarily find out by inquiring of his pastor. Litera-ture explaining the obligation of members and instructions how to join or how to organize can be had by applying to the sec-retary, at No. 70 East Market street, and those who wish to show a sympathy can remit to Treasurer Newlin or call on him in the Lombard Block. The league is growing, notwithstanding the most persistent opposition by the handful of very good people who will have nothing but prohibition, pure and simple. There are probably twenty voters in sympathy with the league to one who sympathizes with the saloon league, except as it is a most powerful factor in politics, and yet not half of these will send money to the treasurer in support of it, or call for information how to join it, thinking they discharge their whole duty when they say prayers, and grow because the laws against gambling hell: and saloons are not enforced in spite of the

Good Housekeeping. A few drops of alcohol on the inside of a lamp chimney removes all trace of greasy smoke, when water alone is of no avail. Lamp chimneys which are cleaned in this way are not so likely to crack as when they are cleaned with water. A tablespoonful or so added to the dishwater in which fine glass is washed has a wonderful, brightening effect, giving them a clearness that can never be attained by soap and water alone. Nothing dissolves varnish so quickly as a little alcohol. Though turpentine and soap and water be utterly unavailing, old paint stains will often yield to alcohol alone. The advantage that alcohol has over turpentine is that it evaporates quickly and leaves no residue behind, as turpentine does. Though turpentine is excellent for cleaning glass, it must be washed off carefully or a sticky film is the result.

## WHEAT WENT HIGHER

Firmer Cables and a Falling Off in the Visible Reported.

Chicago Opened at 59 7-8c and Closed at 60 1-4-Corn, Oats and Provisions All Advanced.

CHICAGO, Feb. 14.-Wheat was higher to-day. Higher cables, better exports and lighter receipts caused the advance. Bradstreet's report caused a sharp decline, but a reaction followed on apprehended damage to the English crop from cold weather. Corn closed with a gain of 1/2c for May. May oats closed 4c higher and provisions higher all round.

Wheat opened firm with May %c higher, at 59%c. The Liverpool market, with its higher quotations, was responsible for the early advance. The later cables reported continued firmness in Liverpool, with upward tendency, and prices here began an advance. The receipts for the day were 85 cars at Chicago; 131, at Minneapolis, and 65 at Duluth. The receipts here a year ago were 281 cars; at Minneapolis, 200, and at Duluth, 15. St. Louis reported some export business, 100,000 bushels being the quantity given as taken to-day. The export clearances for the four principal Atlantic ports were equal to 455,000 bushels in wheat and flour, principally flour. The bullish effect of the early news was such as to raise the price to 60%c, but Bradstreet's visible supply statement changed the outlook materially and a decline to 60%c followed. Bradstreet reported a decrease of only 467,000 bushels for both coasts, an increase in Europe and afloat of 1,704,000 bushels and an increase in Australian stocks since two weeks ago of 2,170,000 bushels. Reports that crop damage in England was responsible for the advance at Liverpool, caused a reaction, but May closed 1/2c from the top figures of the day. May opened at 59%c, advanced %c, declined %c and reacted %c, to close at 601/4c.

In corn there was a moderate business transacted, the market toward the close ruling rather quiet. A firmer feeling was displayed and moderate gains were scored. The upward turn of wheat helped the price, as did also the buying by several of the larger local concerns. Opening trades were at 1/2/1/40 gain, and, under a fair demand and moderate offerings, sold up 1/20 more, eased off 1/40, ruled steady and closed with May but 1/8c from the top.

There was a stronger feeling in oats, with a moderate trade. No interesting features were developed. The available supply decreased 262,000 bushels, which aided in firming up the market Fluctuations were confined to a 1/4c range, and May closed midway between the top and bottom figures of

the day. A fair business was transacted early in provisions. The opening sales were at about vesterday's closing figures. On some support from the packers and good covering by those who had sold short yesterday a liberal advance in value was secured. The strength in wheat also contributed to the firmness. The improvement developed early continued, values further advancing to a limited extent, mainly on the stability in wheat. Shortly before the close the offerings increased, and, the support having been withdrawn, a reaction followed to a moderate extent, from which there was a partial recovery, the market closing steady near recovery, the market closing steady hear the day's top figures. Compared with last night, May pork is 15c higher, May lard .05c higher and May ribs .05c higher. Estimated receipts for to-morrow are: Wheat, 60 cars; corn, 320 cars; oats, 90 cars; hogs, 26,000. MINNEAPOLIS, Feb. 14.-Receipts of wheat were lighter, amounting to 132 cars, with 75 cars shipped. A portion of the cars shipped went to New England, chiefly of low grades. May opened at 56%c; July, 58%c. Close: February, 56%c; May, 56%@57c; July, 58%c. On track: No. 1 hard, 60c; No. 1 Northern, 58c; No. 2 Northern, 56c. There was very little sold to arrive. The receipts for the week are expected to fall considerably below the daily average of last week Reports from the interior still show that farmers are marketing very little, but it the weather should be suitable it is possible that the present rise, if it should hold a few days, will bring more wheat forward to country stations from farmers' granaries. About the same number of mills are grinding as a week ago. Sales of flour are steady, with a little higher prices asked to-day. The reported sales were from \$3.30 to \$3.45 for patents and \$1.75@2 for bakers'. The feed market still holds up, and considerable low grade flour is going into feed. The clearings to-day were 3,300,000 bu.

Dry Goods. NEW YORK, Feb. 14.—The marked improvement in the weather conditions is attended by a larger degree of activity in the dry-goods district on local account, while the mail orders are coming in more numerously, and in some cases for larger lots than heretofore in demand. Prices have varied in no special particular and cartainly show no improvement. Cotton goods rule fairly active and generally steady. Print cloths and prints dull. Ginghams and wash goods are fairly active and steady. Dress goods, hosiery and un-derwear and the foreign dry-goods departments show moderate activity at about former prices. The jobbing trade is more active on a steady run of mail orders and fairly active local demand. The following reductions in prices were made late this afternoon: American, %c; indigoes to 4%c; American indigo and gold to 5c, and the jobbing prices have been reduced to the same figures. These prices are 1/2c lower than ever before.
